

BIKE REPAIR STATIONS & PUMPS

High Security Public Bike Pump

BIKE PUMP

We're pleased to be offering the most durable, reliable, rugged, easy-to-use, and affordable outdoor-rated public-use bike pump available. This pump is completely sealed from the elements and specifically designed for outdoor public use. No more water filled gauges! It is ideal for campuses, cities, trails, or other heavy use settings. Solid stainless steel construction, a proprietary piston and rod seal, and the custom cut resistant steel braided core air hose ensure the High Security Bike Pump is perfect for long-term, sustainable use. Even better, the pump is fully serviceable for a lifetime of use making it a truly sustainable product.

The High Security Bike Pump comes in a gauged, or the more affordable gaugeless option.
