

BIKE LOCKERS

# Visilocker<sup>®</sup>

SAFETY VIEW BIKE LOCKERS

Do you need to meet a bicycle ordinance? Is price an issue? Safety? Welcome to our VisiLocker. This product was designed specifically for Architects and Contractors that want a simple, intuitive and highly secure Class 1 storage option that meets the specifications required to get the job done right.

Because any content can be hidden in a locker, The safe view panels are becoming a safer option than fully enclosed bike lockers. This helps Police and Fire Departments identify what is always inside. This product can also be used as a storage unit for other items if bikes are not in the picture.
